Response to Applicant's Amendment and Arguments

1. The amendment filed October 15, 2004, has been entered and made of record.

Claims 1-9 and 14-35 are cancelled. Claims 10-13 and 36-43 are pending.

Applicant's arguments regarding the rejection under 35 U.S.C. §112, hav been fully considered, and are persuasive. The Examiner now agrees that claim 36 is not a "single means" claim. The rejection is therefore withdrawn.

In response to the amendment to claim 40, and Applicant's arguments, the rejection of claims 40-43 under 35 U.S.C. §101 is withdrawn.

Reasons for Allowance

2. The following is an examiner's statement of reasons for allowance:

Claim 10 requires selecting a duration of the presented information based on said determination of how quickly said audience is changing. The determination is made by processing an audio or video signal by an audio/visual capture device focused on the audience. This limitation is neither disclosed nor suggested by the prior art of record. Claim 36 has a similar recitation. Claim 40 recites a similar recitation as well.

All other claims depend from claims 10, 36 or 40.

Newly cited U.S. Patent Application Publication 20020078441 teaches changing content or an ad based on the rate of change of viewers (paragraphs [0055]-[0056]). However, there does not appear to be a disclosure that the rate of changed is determined by processing an audio or video signal. Further, the publication does not

teach changing the duration of presented information. Finally, the publication does not have an effective date which precedes Applicant's filing date.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
